

COVID-19 Update: During the pandemic, nuchal translucency ultrasound may be unavailable, due to service reductions or patients being in self-isolation. In this circumstance, the recommendation is to use second trimester MSS Quad

OFFER OF PRENATAL SCREENING

***Eligibility criteria for OHIP funded NIPT**

- Advanced maternal age, defined as ≥ 40 years at EDD
- Increased nuchal translucency (≥ 3.5 mm)
- Previous pregnancy/child with aneuploidy (trisomy 21, trisomy 18 or trisomy 13)

NIPT for other clinical indicators may be available through a genetics or maternal fetal medicine (MFM) specialist, please refer to www.prenatalscreeningontario.ca for more details.

All prenatal screening and diagnostic tests are optional and the patient may decline testing at any point in this algorithm
